Our Primary Sectors

- Tech Enabled – The world of technology is here and it's not going anywhere. We are searching for companies that are looking to disrupt industries with new tech-enabled B2B or B2C software and platforms.
- Fintech – Investment management offers unusually high margins and unusually dissatisfied clients; that's a recipe for VCs to turn analog dollars into digital dimes.
- Sales tech. Sales methods for small and enterprise-level businesses are still one of the most manual, inefficient processes in the world.
- SAAS based companies that support critical business functions.
- Cybersecurity
