

SanPete Financial Group

WHO WE ARE

SanPete Financial Group, Inc., a 35+ year USA based Venture Capital raise firm with a consultative team with 100+ years' experience encompassing all financial sectors. Our funding strategies and systems assists companies seeking investment resources. We design and execute funding strategies that help minimize time, resources and rejections on the road to funding by carefully assessing the businesses' innovative and commercial viability. Our consultants locate gaps, holes or missing pieces that are evident in business plans, advisory teams and presentations.

SanPete identifies key inflection points in the business: future points in time where additional funding or other resources are likely to be required. Our funding strategy tells you whether your company is currently best suited for a business loan, venture capital funding, government funding or angel investors; and the best sources of capital for current and future inflection points.

SanPete's assessment of the strengths and weaknesses of teams, business model, business market or industry and offering terms provides business owners the opportunity to properly express the vision, goals and potential to investors to achieve a successful funding.

SanPete Financial Group works primarily in infrastructure sectors worldwide including but not limited to space, defense, climate, water, transportation, communication, energy, medical and cybersecurity.
